BUSINESS REQUIREMENTS DOCUMENT

ITC LIMITED, THIRUVOTTIYUR, CHENNAI
Version : 1.0 (Draft)

DOCUMENT REVISION HISTORY:

DATE	VERSION	DOCUMENT CHANGES	AUTHOR

1. INTRODUCTION

1.1 ACRONYMS AND GLOSSARY

The following table includes definitions for any unique symbols or notations that are used in the document.

Term	Definition
BRD	Business Requirement Document
Hrhookup	Web enabled Attendance Software
TAM	Communication Software
ITC	ITC Limited
AMC	Annual Maintenance Contract
ESS	Employees' Self Service
TO	Time Office
HRAP	HR - Authorised Person

Table 1: Acronyms and Glossary

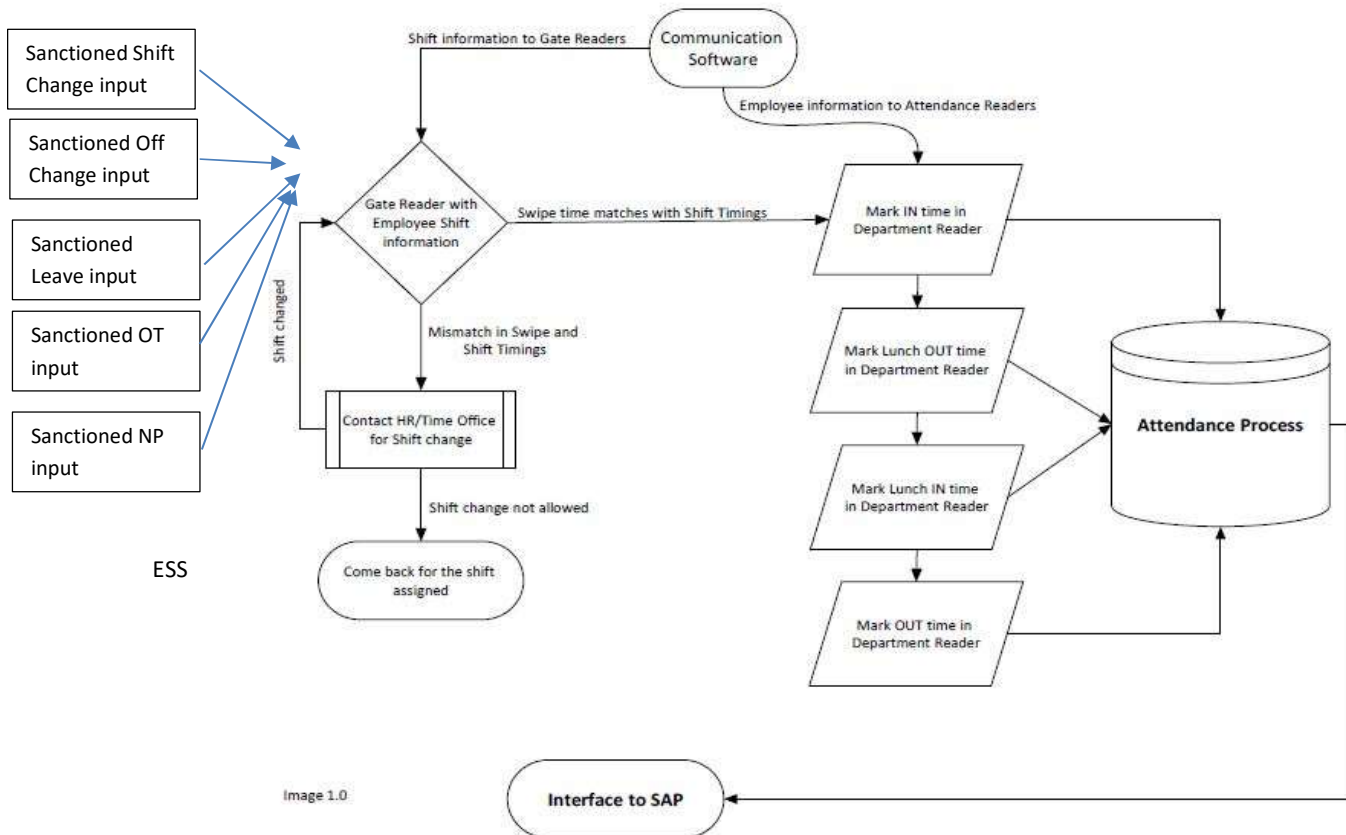

1.2 PURPOSE AND INTENT

ITC has an attendance automation system for employees and contract labours from EXISTING VENDOR. Wherein ratification of employees' nil punches & mispunches are being handled with manual process and forms as ratification process. Wherein ESS (Employees Self Service Portal) is expected to be a submodule to be customised our requirement towards digitisation of Time Office which will help us to become paperless, Eliminate NVAs (Saving of Efforts & Time), Release of resources to productive work, Reduce Errors, Timely input for better decision making, Interactive Process - Lead & Real time indicator (Precise) & Promotion of Discipline by rightful awarding of Leave / Off / Shift changes.

The attendance system will cater to approximately 750 Employees & Apprentices as below.
This module should have compatibility of mobile & PC.

SL.NO	CATEGORY	NUMBERS	AREA
1	Employees & Apprentices	750	ESS

The attendance system will be configured as below (Image 1.0).

enabled Nodes (Kiosk) / PC / Readers to be installed key places across factory. Login & Access will be provided to an employee based on FRR or with proxy card of an employee. Will take them to following screen

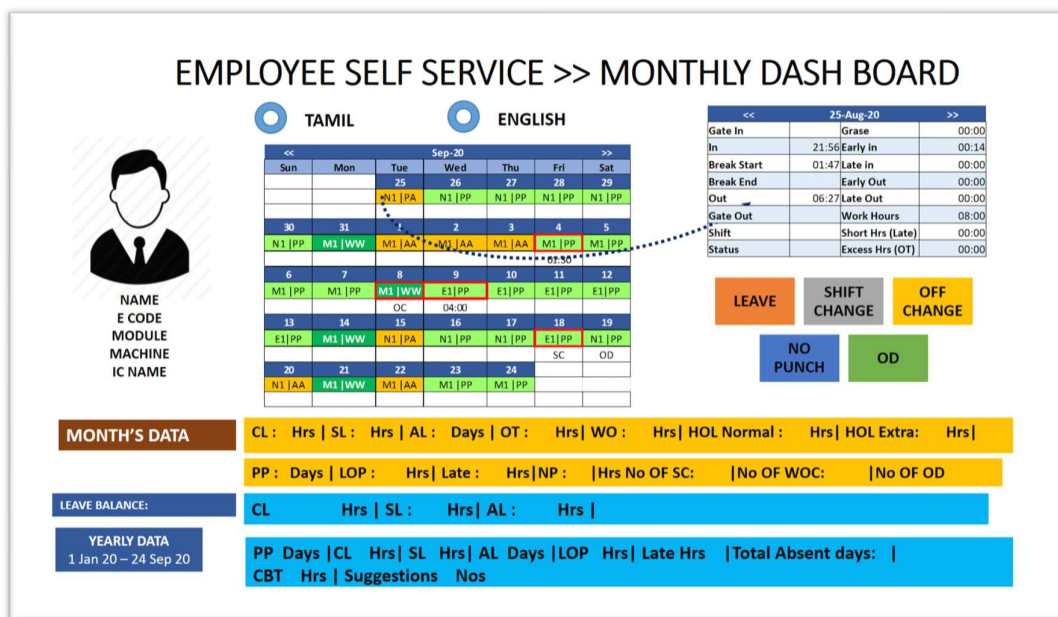

FIG: 1

- This dash board is for the attendance month (Ex: Sep -20 (Aug 25 – Sep 24)) – can be moved back and forth
- Left table represents the individual attendance performance with shift schedule – W.Off (with date & day)
- Following are the colour notifications

LOP	Shift Change
Present	OFF Change
WO	OT
NH	OD
Leave	

- LOPs- Can be ratified retrospectively with “No Punch” or Leave within 15 days from date of first instance of absence
- From Dashboard (Fig: 1) – an individual can view and trigger the application process.
- Yellow highlighted dates are “short punches” or “Nil punches” – need to be ratified with “leave”, “OD” or “No punch” applications.
- By “clicking” yellow highlighted cell, employee can see the right side top table, an attendance punch information pertaining to said day. He can choose applications beneath the API table to apply or ratify “Yellow Highlighted Cell into “Green” (Presence) or “Pink” (Leave)
- An individual can choose multiple dates for a leave period basis leave rules restrictions
- But for “No Punch” & “OD” – individual can choose single day by single day – because reason may not be common

LEAVE MANAGEMENT - CASUAL LEAVE

NAME :
E CODE:
MODULE:
MACHINE:
IC NAME:

ESS – LEAVE MANAGEMENT

CASUAL LEAVE
BAL: Hrs

SICK LEAVE

ANNUAL LEAVE

ESIC LEAVE (UNPAID)

TOTAL LEAVE APPLIED

RETROSPECTIVE

REASON

APPLY

First / Second Session

☒ YES
☐ NO

KEY PAD ENTRY

..... Hrs – SUCCESSFLLY APPLIED – FOR RETRO – 3 STAGE APPROVAL PROCESS

Denomination Ranges based Shift / Session
2.5 Hrs / 3 Hrs / 3.5 Hrs/ 4 Hrs / 4.5 Hrs / 5.5 Hrs (AUTO POPULATE BASED ON SESSIONS & SHIFT ATTACHED)

AUTOFILL BASED OF DATE OF APPLICATION - - FOR RETRO MSG – PL PLAN YOUR LEAVES AHEAD IF SITUATION IS UNAVOIDABLE (RETRO LEAVE NEED HR APPROVAL)

FIG:2

- If casual leave is selected for the chosen days, then based on shift, sessions (timing), system should populate hours of leave to be applied. System should refer standard time schedule of shifts notified and employee belongs. If he selects more than two days, system should deselect later date and suggest leave period to be applied (why in batches of two days to be checked)
- Date of application is auto selected to a retrospective leave. Then, it will become 3 stage process Employee >> IC >> HR
- Reason – enable employee to type the comments on his own
- On apply click, it will give summary of transactions like – period of leave (From & TO), Hours of leave applied, if retro (planning message), Closing balance of the remaining leave belongs to that category, paid / unpaid leave (Paid / unpaid will be decided based on availability of balance) and number of approval stages involved.
- Post acknowledgement of summary “Number of Hrs taken” , will come back to dashboard saying “Your leave application is submitted successfully”. (Disclaimer – Leave can be cancelled If it’s an prospective leave message)
- Security Team can view approvals related to Leave, OT, OD (extraordinary transitions) at their portal to accept or release the employees.
- Intervening W.Off / Holidays should not be counted
- Prefixing and suffixing of W.Off / Holidays - both are allowed
- If someone is on LOP for entire attendance period previous to his entitled W.OFF (not even present for a day), upcoming W.Off need not be considered (since he did not earn it)

SICK LEAVE

- Ref Fig: 2, same as casual leave
- If Sick Leave is selected for the chosen days, then based on shift, sessions (timing), system should populate hours of leave to be applied. System should refer standard time schedule of shifts notified and employee belongs. Refer table annexed at the end. Employee shall first take a FMO clearance by getting FMO signature in the fitness certificate and get it recorded in Time Office with a reference number and same can be indicated in application during entry of Sick leave work flow.
- Sick leave is retrospective in nature, hence it’s 3 stage process Employee >> IC >> HR
- HR should be reminded of witnessing of FMO certification of “fitness to join”. Reason – enable employee to type the comments on his own
- On apply click, it will give summary of transactions like – period of leave (From & TO), Hours of leave applied, Closing balance of the remaining leave belongs to that category and paid / unpaid leave (Paid / unpaid will be decided based on availability of balance)
- Summary message will notify employee to apply within 15 days from the date of starting of leave.
- Post acknowledgement of summary, will come back to dashboard saying “Your leave application is submitted successfully) – any message to be given
- Security Team need not be looped
- Intervening W. Off / Holidays should not be counted
- Prefixing and suffixing of W. Off / Holidays - both are allowed
- If someone is on LOP for entire attendance period previous to his entitled W.OFF (not even present for a day), upcoming W. Off need not be considered (since he did not earn it)

ANNUAL LEAVE

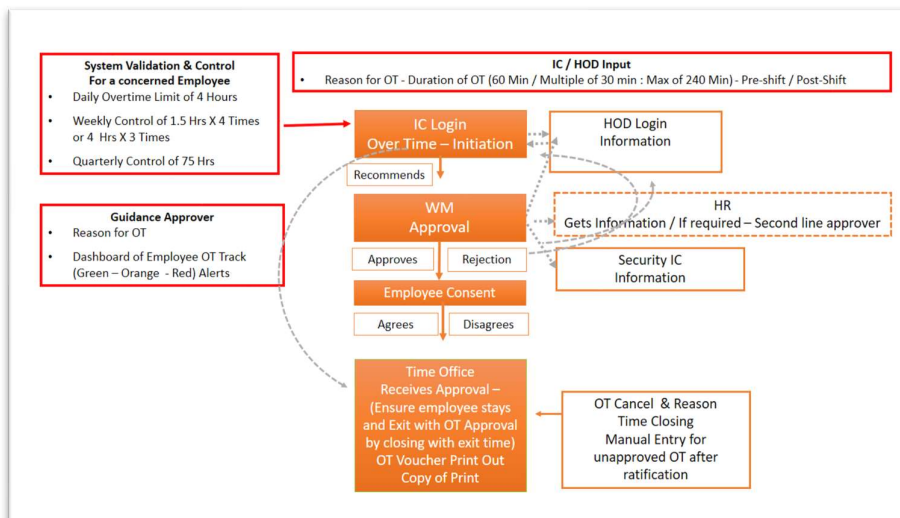

- Ref Fig: 2, same as Casual leave
- If Annual Leave is selected for the chosen days, system should populate total hours (8 Hrs) of leave to be applied.
- Date of application would mark Retrospective or not, if it’s a retrospective leave. Then, it will become 3 stage process Employee >> IC >> HR
- Annual Leave can be applied in three instalments. Any annual leave can be extended basis contingency. Need not be counted afresh instalment. If someone applies for 4th instalment, system should throw caution message that “You will not be entitled for Next LTA”.
- Reason – enable employee to type the comments on his own

- On apply click, it will give summary of transactions like – period of leave (From & TO), Hours of leave applied and Closing balance of the remaining leave belongs to that category. Summary message will also notify employee to apply within 15 days from the date of starting of leave.
- Post acknowledgement of summary, will come back to dashboard saying “Your leave application is submitted successfully)
- Security Team need not be looped
- Intervening W.Off / Holidays should not be counted
- Prefixing and suffixing of W.Off / Holidays - both are allowed
- If someone is on LOP for entire attendance period previous to his entitled W.OFF (not even present for a day), upcoming W.Off need not be considered (since he did not earn it)

ESIC LEAVE (to be enabled for only for ESIC Employees)

- Ref Fig: 2, same as Sick leave
- If ESIC Leave is selected for the chosen days, then based on shift, sessions (timing), system should populate rounded total hours (8 Hrs) of leave to be applied. System should refer standard time schedule of shifts notified and employee belongs. Refer the table annexed. Employee shall first take a FMO clearance by getting FMO signature in the fit to join by ESIC and get it recorded in Time Office with a reference number and same can be indicated in application during entry of Sick leave work flow
- Sick leave is retrospective in nature, hence it's 3 stage process Employee >> IC >> HR
- HR should be reminded of witnessing of FMO certified “fitness certificate”.
- Reason – enable employee to type the comments on his own
- On apply click, it will give summary of transactions like – period of leave (From & TO), Days of leave applied. Summary message will notify employee that “LOP will be marked for the days ESIC leave applied” and also notify if they apply after 15 days from the date of starting of leave as “Apply leave on time”.
- Post acknowledgement of summary, will come back to dashboard saying “Your leave application is submitted successfully)
- Security Team to be looped since it can be partial day also – Why is it here but not in SL? Both are retrospective in nature as per the note
- Intervening W.Off / Holidays should be counted.
- Prefixing and suffixing of W.Off / Holidays both are allowed
- If someone is on ESIC for entire attendance period previous to his entitled W.OFF (not even present for a day), upcoming W.Off need not be considered (since he did not earn it)
- First day or Second day – **waiting period** (not more than 2 days), can be accumulated till year end. If employee can be paid by end of December if they have adequate balance at the end of the year.

OVER TIME

ESS – OVER TIME – WM (LOGIN)

PENDING ACTIONS – APPROVALS

E NO	NAME	Sub Module	Date	FROM - HRS	TO - HRS	TOTAL HRS	WEEKLY HRS	QUARTERLY HRS	REASON

XXXXX	ALAGAR		XX-XX-XX	XX:XX	XX:XX	X:XX	DATE	XXXXX	XXXXX
XXXXX	MANI		XX-XX-XX	XX:XX	XX:XX	X:XX		XXXXX	XXXXX

REASON	APPROVE	DISAPPROVE
REASON	APPROVE	DISAPPROVE
REASON	APPROVE	DISAPPROVE

On Launch

- IC / HOD will select an employee or list of employees as a batch from his team from drop down for a single workflow of OT
- List reason for OT – Which is auto populated and Key pad entry also available.
- Will select – Pre or Post to decide which session of overtime to be seen.
- Selection duration of OT - Minimum 60 min and Maximum 240 Min – in multiples of 30 mins - Pre – shift / Post Shift OT
- App will validate eligibility for employee as per table below. It should not allow an IC / HOD to raise workflow for an individual if he exceeds limits of daily, monthly or quarterly OT limits as per table below.
- Week off change should not be allowed for an individual who has completed total of 4 hrs OT in a week

Period	Arrangement	Green	Ambur	Red
Quarter	75	25	50	75
Week	12	4	8	12
Daily	4	4	4	4

- While HOD / IC – acknowledges initiation of OT workflow, info passed to Time Office & Security IC (Only information)
- Work flow will go to WM (Primary) / HR (Secondary) with Green / Amber / Red indication – **HR approval is required post WM or vice versa (HR then WM) as standard workflow. Please change this.**
- Post WM approval – work flow will go to concerned employees home page with a message. “Hereby I consent to work overtime considering organisational requirement”
- Post employee consent this workflow should reach Time Office (HRhookup / SAP)
- When time WM is unavailable, HR Manager will approve the OT **(when WM is not there, the concerned HOD shall approve and not HR Manager. HR Manager will be separate approval.)**
- Information will be passed to IC / HOD Concerned, Time Office, Security In charge and HR

- Once employee reports at time office after completion of OT, time office / Security can close / acknowledge Workflow
- In case failure of employee not do OT after approval, Concerned IC who had initiated original process should be able cancel the OT workflow initiated for an individual
- In case, as a exception, employee completed OT during odd time (sundays / III Shift) – Next day after getting a OT slip Approved by WM, time office can do through manual entry.

CLICK OFF CHANGE – HOLD ON ACTUAL OFF, DRAG IT WITHIN (BEFORE / AFTER) 3 DAYS

APPLY

FROM DAY (DATE) TO DAY (DATE)

SHIFT CHANGE

On Launch – Employee Initiated

- There are 3 relay groups – 3 shift, 2 Shift and Single shift – other than watch & wards
- W&W comes under 3 shift Relay but on different timings
- 3 Shift Relay having 3 unique shifts Early – Mid – Night shift as E1, M1 & N1 respectively
- 2 Shift Relay having 3 unique shift as Early – Common – Mid shift as G1, D1 & F1 respectively
- 3 kinds of shift changes – Single day – Period – Permanent based on the period for changes intended
- After login, an employee would select Shift Change, would get 3 Point selector (Single day – Period – Permanent) – This selection would fix up the range days for which shift change has to be effected. If period is a range selected, calendar to be enabled to select the range.
- Post selection of day range, based on relay an employee belongs, when he keeps his cursor on date on which shift change to be effected, a dropdown should come would give choices two other shift than employee originally belongs (Ex: 3 Shift Relay – if Original Shift is E1, then it should give M1 & N1) (Ex : 2 Shift Relay - if Original Shift is G1, then it should give F1 & D1). An employee can exercise his option of selection, key in reason for the change and complete the process.
- This will lead to an acknowledgement of summary should tell – period of selection, original & changed shift”
- Post acknowledgement will come back to dashboard saying “Your Shift change application is submitted successfully”. **Interplay Check: if an employee triggers shift change and or off change, system should check time gap of gap of 8 hours and throw caution / error message to an individual . Example, if someone applied for shift change on Sunday considering weekly shift change happens on Monday, system shall validate the same.**

IC can exercise his option of selection, key in reason for the change and complete the process.
- This will lead to an acknowledgement of summary should tell – period of selection, original & changed shift”

- Post acknowledgement will come back to dashboard saying “XXXX Shift change application is submitted successfully”.

REPORTS

3.1 SINGLE DAY REPORTS

- Suggest us available options

3.2 PERIODICAL REPORTS

- Suggest us available options

3.3 ANNUAL REPORTS

- Suggest us available options

3.4 STATUTORY REPORTS

- Suggest us available options

3.5 REPORT BUILDER

- Suggest us available options

3.6 OTHER REPORTS

The following are the Other Report options requested by ITC.

Exception Reports

- People applied beyond 15 days
 - 100% attendance
 - More off changes – more than 10 W.Offs in a year (Limit Nos. to be in soft option)
 - More shift changes – more than 3 / week, more than 12 / month and more than 24 / quarter and 50 / annum (Limit Nos. to be in soft option)
 - Over time – 60 Hrs / Week, 75 Hrs / Quarter and 200 Hrs / annum (Limit to be in soft option / Borderline Alert reports also required)
- ⇒ The output of the reports will be in PDF/Excel formats and in analytical charts
- ⇒ Provision to apply filters will be provided.

4.1 STAKEHOLDERS

- Applicant – Employees, BOATs, CAT, NAPS & FTC
- First Approver – IC’s
- Second Approver – HR / WM or as may be allotted
- Recipient 1 – Time office Team (all people of time office should access this flow)
- Recipient 2 – Security Team – Extraordinary ins /exits (middle and beyond shift timings) like (OT, OD, Leave & Permission)
- Admin - HR Team

5.1 MAINTENANCE & SUPPORT

The following are the maintenance requirements of ESS.

- ⇒ The database of the software needs to be backed up regularly.
- ⇒ Backup file of the database will be generated and stored in an ITC specified folder in the server on a daily basis.
- ⇒ Support for the software will be provided until sign off. Our support services are available between 09:30 and 18:00 hours, Monday through Friday.
- ⇒ Post sign off, bug fixes will be taken up without any additional cost.
- ⇒ Post sign off, support for the software will be provided on chargeable basis or under AMC.
- ⇒ Any new requirement received later to signing of this document will be taken up with time and cost estimation separately.

Table : Shift Based Half Day Slots
