

Corporate Client Master Correction (8th January 2023)

Make sure to correct this in all client master

(No stories of enquiry path is different and direct creation is different)

-While entering duplicate pan number it should give alert immediately and be on the page, don't wait till all fields are entered

- Mark required fields using (*)
- Need client list view
- Need plant list view
- State is not getting inserted in DB automatically it is showing empty after saving plant
- Pan number column should be freezed when we select the client name and it should appear immediately after selecting client name
- the address mentioned in above should be able to bring in shipping and billing address (same as client address)
- the fields showing in client page is not reflecting anywhere (edit, approval, view)
- until the client plant is created it should not allow to enter in to cost sheet creation
- status is to be set as waiting for client master creation | plant creation | waiting for approval
- only after approval it should allow to enter to create cost sheet
